

Club Captains Report

2023

Well another season has passed and we are about to embark on another one. Interestingly without our past President Ray Thompson at the helm. A person that has seen us go from strength to strength over a longtime in charge. Thank you Ray for your dedication over that time. Another well done should go to Mick Scott for his duties as Secretary in organising venues for the past year and this. Not to be outdone a huge thanks must go to Richard Kemp in taking on the role of Treasurer, which had its issues with the bank in the early days and unfortunately his own in the latter days of the season.

It has been decided that 2 grades will operate for the ensuing season with cut off expected to be around 23. i.e. 23 and over will be deemed to be B Graders and those under A Graders. Mind you some of those close to either side of the cut off should be aware that their scores and plays will be diligently watched.

Congratulations to all winners at the presentation night.

Please note that have made comments to people as to my own involvement within the next year or so. If any of you younger members have time to take over my role please don't hesitate to talk to me as I will assist anyone in doing the role.

This not a threat but my needs and wants have taken a different path to the one that I am now on.

I remain your loyal servant for the present.

Regards

Garth Goodwin
